IT PROJECT CONSULTING SERVICES

We are a full service project based consulting company. Our main practice areas are focused on Microsoft .NET and DotNetNuke technologies.

Get Your Project Done Right, the First Time

Our IT consultants are leaders in providing technical solutions to businesses of all sizes across all industries. Our project managers work closely with clients to assure that we're always finding the very best solution to your toughest technical problems. We do so efficiently; staying on time and within budget.

Our goal is to add value to every project by delivering the right technical expertise at the appropriate project stages; performing assessments and defining project scope in such a way that the client always knows where their project stands. Deliverables are always clear to all parties involved, communication is the key to project success.

IT Project Based Consulting Experience = Results

Throughout our existence since 2005, 13 Below has fully managed development projects from inception to delivery. We work side-by-side with our customers through the initial stages of scoping the project to delivering the project, on time and bug free! Our consultants have led hundreds of development projects within our IT consulting practice. Put simply, IT project consulting is what we do!

IT STAFFING SERVICES

We offer a full range of IT staffing solutions to help satisfy your most strategic component to success – your people. Receive up to 4 matching consultant profiles within 48 hours. Guaranteed!

IT Recruitment Services in Your Area

We are the leading provider of IT professionals on a contracting, full-time, or project basis. We specialize in initiatives ranging from web development and application integration, to network security and technical support. With access to over more than 750,000 IT professionals within our network we can provide you with immediate access to the top IT talent for your specific project needs.

Find the Right People Fast

Years of experience have resulted in an efficient process for our team to fully understand your business, culture, and project needs. We carefully evaluate each and every candidate to make sure they are fully qualified for the position. That means your projects move forward quickly without the hiccups that can result from a lack of expertise or the wrong cultural fit.
